R E M A R K S .

It will be observed, that this Pamphlet purports to be a "List of Deserters and *Non-Reporting Drafted Men*," from the several Drafts heretofore made in this District. It is not claimed, therefore, that all are actual deserters. Many persons whose names appear are doubtless in honorable service, but having gone off from their enrollment districts, and enlisted in other and remote localities, it was impossible for the Board of Enrollment to follow and keep apprized of their doings. In cases where rumor has brought any information, however vague, with regard to such, a remark has invariably been printed opposite their names. It will give the Board pleasure, at all times, to place these parties right upon the Records of this Office, if they or their friends will take the trouble to furnish satisfactory evidence of the date of their enlistment, and the organization in which they are serving.

Then, too, a number may have removed permanently, and in good faith, without appreciating the importance of having themselves at once enrolled at their new homes, and forwarding the evidence upon which to strike off their names here. All such should communicate at once with this Office, so that the facts may be ascertained, and a proper decision had in every case.

A reward of thirty dollars will be paid for the apprehension and delivery to the nearest (District) Provost Marshal, of each of the men named in these pages, who shall be held to service as a delinquent drafted man.

It should be known and kept in mind, that all persons on these lists, who shall hereafter report and be discharged, as well as any who may be discharged after arrest, should preserve carefully, and keep with them, their exemption papers, so as to be able at all times to show officers and others in possession of copies of the lists, that they are no longer regarded as delinquent.
